Capgemini positioned as a Leader in Gartner's 2020 Magic Quadrant for Public Cloud Infrastructure Professional and Managed Services, Worldwide

Paris, May 12, 2020 – [Capgemini](#) today announced that it has been positioned as a Leader in Gartner's 2020 "[Magic Quadrant for Public Cloud Infrastructure Professional and Managed Services, Worldwide](#)", for completeness of vision and ability to execute. The Gartner Magic Quadrant evaluated a total of 20 service providers for a broad range of cloud infrastructure services.

"As our clients increasingly need to harness the velocity and business value public cloud has to offer, we continue to focus on our cloud first strategy by increasing investments in the skills of our people, as well as the creation of value added services and accelerators, to enable our clients to be at the forefront of cloud adoption. We are delighted to be positioned as a Leader in Gartner's Magic Quadrant for Public Cloud Infrastructure Professional and Managed Services, Worldwide," said Jean-Philippe Bol, Executive Sponsor for Cloud at Capgemini and Member of the Group Executive Board.

This Magic Quadrant is focused on service providers that deliver compute, storage and network resources in a self-service, highly automated fashion. Compared to the last year Capgemini has improved its position on the "Completeness of Vision" axis and the "Ability to Execute" axis, which we believe is a reflection of its continued commitment and global investment in cloud capabilities.
