

# SAP® Concur® Partner

Professional Implementation

## SYSTEM REVIEW

### OUR OFFERING

The System Review is a quantitative and qualitative rating for your SAP Concur solution in which our team evaluates both system configuration and daily expense management activities. We assess different parts of the system and focus on areas for improvement.

Complete evaluation  
within **2 weeks**

**System analysis** resulting  
in clear **fields of action**

Detailed **result  
presentation** and  
**management summary**

### LEADERSHIP TEAM

**Martin Schmidt**

Vice President People  
& Technology

**Thomas Neid**

SAP Concur Architect  
& Integration Specialist

### WHO ARE WE?

Our team consists of certified and experienced employees in the field of human capital management and change management. By ensuring a good overview of complex requirements, the team is ready to find efficient solutions while constantly looking at new trends and technologies.

### OUR APPROACH

The System Review offers a professional assessment of your SAP Concur solution, providing both quantitative and qualitative ratings. It comprises two modules:

#### System Overview

The System Overview module evaluates the level of customization in your system, ensuring it aligns with your specific requirements without unnecessary complexities making the T&E experience effortless and smooth.

#### Deep Dive

The Deep Dive module delves into various categories, assigning a comprehensive scoring range from 1 to 10. This in-depth analysis examines key aspects of your SAP Concur solution, allowing for a detailed assessment of its performance and effectiveness.

**By conducting the System Review, you gain valuable insights into the strengths and areas for improvement in your SAP Concur solution, enabling you to make informed decisions and optimize its configuration to better meet your business needs.**
