This is our promise at the core of our people proposition.

It's the universal promise we make to you and our people as well as our clients and society at large.

It celebrates a dynamic, inclusive work environment that helps you and our people achieve what matters, the future you want for your career and for the world around us.
Growing clients’ businesses while building a more sustainable, more inclusive future is a tough ask. But when you join Capgemini, you join a thriving company and become part of a diverse collective of free-thinkers, entrepreneurs and industry experts.

A powerful source of energy that drives us all to find new ways technology can help us reimagine what’s possible.

It’s why, together, we seek out opportunities that will transform the world’s leading businesses. And it’s how you’ll gain the experiences and connections you need to shape your future.

By learning from each other every day, sharing knowledge and always pushing yourself to do better, you’ll build the skills you want.

And you’ll use them to help our clients leverage technology to grow their business and give innovation that human touch the world needs.

So, it might not always be easy, but making the world a better place rarely is. Capgemini. Get The Future You Want.

SEAT

CAPGEMINI COLLABORATES WITH SEAT ON THE TRANSFORMATION PLAN OF THEIR LOGISTICS SYSTEMS TOWARDS SAP S/4 HANA

This search for excellence within its internal systems led SEAT to investigate the potential of the SAP S/4HANA platform, which represents a new generation technology. Transitioning to the platform was a significant transformation, and they trusted Capgemini, who conducted a review of their current systems and developed a transformation plan for the transition to SAP S/4HANA.

By the end of the project, SEAT had gained a comprehensive understanding of the implications of its journey to the SAP S/4HANA platform. With that knowledge, the organization can now make informed decisions on transformation and prepare its employees for the change.
Navantia needed to digitalize its processes and its production plant to adapt to the new challenges of the market, being more efficient and effective in its production processes. To carry out this digitization process, the SAP MES tool was chosen, and the Diesel Engine Factory at Cartagena was selected as its first point of deployment. Capgemini was the designated technology partner to carry out this task.

This tool provides plant operators and supervisors with a single work environment for all existing order types in the plant: production orders, project orders, graphs and maintenance orders.
Capgemini collaborated with the Red Eléctrica Group on the development of a tool to measure the results generated after the implementation of the company’s Circular Economy Roadmap, in order to continuously determine the viability and efficiency of the roadmap initiatives and measure its global impact. The tool uses a single unit of measurement to monitor environmental sustainability, incorporating factors such as emissions, waste and the consumption of raw materials. The tool also allows Red Eléctrica to calculate the monetary value of the contributions to sustainability within its Circular Economy strategy, showing the economic impact both for the Red Eléctrica Group and for society in general. This enables the company to make better decisions based on actual impact, effectively assess the results of its strategy, and monitor its overall viability and efficiency.
Ferrovial was considering entering the shared mobility sector in Spain with ZITY, a business not yet explored by the company. Capgemini Invent had the tools to help you in your objective, so it carried out the analysis of the market and of the user profiles, with the estimation of the demand and dimensioning of the size of the fleet, as well as with the definition of the positioning strategy and support for the development of the business plan for the service in Madrid.

The ZITY shared mobility service was launched, in alliance with Renault, and already in its first months of operation, it avoided the emission of more than 1,600 tons of CO2, thanks to the use of these vehicles powered by clean energy.
BRING YOUR WHOLE SELF TO WORK IN AN INCLUSIVE ENVIRONMENT
Ethics and our **seven values** are at the heart of our corporate culture and all our business. We believe that ethics and sound integrity are the foundation of a profitable and sustainable business, and our seven values have guided us since the beginning of our organization.

In 2010, we established a formal Ethics and Compliance (E&C) program at Capgemini, placing our values at the centre. This extensive program was crucial to a diverse and decentralized group success such as ours, with multicultural teams operating in more than 40 countries.

Since then, it has helped us become one of the most trusted and respected companies in the world, being recognized as “One of the World’s Most Ethical Companies®” by the Ethisphere® Institute for nine consecutive years.

Our ethics program aims to raise employee awareness of our ethical principles and policies, enabling them to make better decisions based on honesty and integrity.
DIVERSITY IS OUR COMMITMENT AND VALUE

At Capgemini we are convinced that diverse teams are an extraordinary fertile ground for innovation to flourish. The richness offered by the ability to approach solutions from different perspectives only strengthens organizations and offers a complete and competitive response to the challenge posed by clients and the market.

The firm commitment entails the equal opportunities guarantee for professionals, understanding this as a key element in the retention of talent and a responsibility to society.

https://www.capgemini.com/diversity-inclusion/
Through the Gender Equality Plan, Capgemini ensures that the equality policy becomes one of the foundations of our business culture. This is permanently incorporated into managing Capgemini’s human capital to guarantee that both women and men have the same employment opportunities, internal training, promotion and all management practices.

Share young and dynamic team spirit
HAVE FLEXIBILITY TO WORK YOUR WAY
THE THREE DIMENSIONS OF OUR WAY OF WORK

Technology is essential to drive the new ways of working: a digitally-enabled, borderless, hybrid working model that creates new possibilities for our people around the world. Our way of work is driven by transformation in three key business dimensions:

**FLEXIBLE WORKING**
Redefining when and how we sell, deliver and get the job done

**CONNECTED SPACES**
Designing pioneering workspaces and innovative digital tools that enable a hybrid work environment that builds trust and collaboration

**ANYONE, ANYWHERE**
New ways to meet our commitments and find the right person regardless of location (only in Spain)
FLEXABROAD: A WHOLE NEW WORLD OF POSIBILITY

You will have the possibility to work in a country where Capgemini has base for a maximum period of 45 days.

**ELEGIBILITY**
- +1 year of seniority in the Capgemini group
- With a local employment contract

**DURATION**
- 45 calendar days in 12 consecutive months

**UBICATION**
- From any country where Capgemini is present *(specific limitation will be applied in some countries)*
- Remote working

**OBLIGATION**
- You must apply 8 weeks in advance through OfficePass and have the approval of your manager before leaving your country of origin.

OUR Recognitions ARE consistent with our values and culture, our CSR and innovation

**RETINA ECO AWARDS**

The Retina ECO Awards are intended to recognize four companies or organizations with a strong commitment to sustainability, innovation and the fight against climate change.

**TOGETHER CAPGEMINI AWARDS**

The Together Capgemini Awards, in collaboration with the Randstad Foundation, launches the fifth edition of the Together Awards with which both intend to reward and give continuity to the extraordinary work carried out by non-profit entities dedicated to the inclusion and normalization of disability in Spain.

**WOMEN FOR THE FUTURE AWARDS**

Premios Women for the Future led by the Women@Capgemini community

Awards given to those inspiring and talented women around us.
CONTRIBUTE TO SOCIETY
The Capgemini Foundation reflects our commitment to making society better, more sustainable and equitable through innovation and technology. To this end, we work with non-profit organisations and the most vulnerable groups in their digitalisation, thus reducing the social divide. We also promote talent and STEAM vocations to transform education, making it more inclusive and diverse. Thanks to our volunteers we build the future.

**MAIN LINES OF WORK:**
- Volunteering
- Digital Inclusion
- Social Innovation
- Sustainability
- Partnerships

**Be volunteer!** voluntariado.corporativo.es@capgemini.com
CONTRIBUTE TO SOCIETY

CORPORATE SOCIAL RESPONSIBILITY

Our CSR program is based on our commitment to our planet, people and society in general.

Environmental sustainability
By driving sustainable thinking into our operations and the work we do with customers, we are securing a future for our planet.

Digital inclusion
By utilizing the skills and passions of our people, we are bridging the digital breach to ensure we have a future where technology is an opportunity for all.

Diversity and inclusion
By having a diverse workforce that represents our society and fostering an inclusive culture, we are building a place where the best talent can thrive.
