

# MOVE TO SAP S/4HANA WITH CAPGEMINI'S ACCELERATED MIGRATION FACTORY

REDUCE THE RISK AND ENSURE A SMOOTH TRANSITION

Businesses evolving at speed require a robust digital platform. Migrating to SAP S/4HANA is an opportunity to transform your approach to digital and the entire way your business is organized. With SAP investing in SAP S/4HANA, companies need to shift from legacy ECC to a modern intelligent ERP. Now is the right time.

Moving to SAP S/4HANA involves multiple critical decisions and challenges impacting day-to-day operations. Capgemini's SAP S/4HANA Accelerated Migration Factory (C-AMF) provides a proven solution to revolutionize your enterprise at the speed of business.

Capgemini leverages the SAP S/4HANA platform to deliver on the promise of the Renewable Enterprise, a company able to constantly grow and adapt to unlock business value and outpace competition.

## An SAP-qualified partner-packaged solution

Our C-AMF framework is built upon our people, process, and tools that deliver an SAP S/4HANA migration journey with more confidence and fewer unknowns.

**People:** Our pool of conversion experts have experience across all geographies, industries, and complexities and we are number one in S/4HANA certifications globally.

**Process:** Capgemini's highly acclaimed iCaptivate Conversion Methodology (iCaptivate) enables the industrialized adoption of SAP S/4HANA innovations.

**Tools:** The repository of Capgemini's IP tools accelerates planning and execution and helps to automate project tasks, support business decision-making, and improve data quality.

## Accelerate with C-AMF and RISE with SAP

C-AMF is RISE with SAP ready. Our services include:

- Moving the enhancements to SAP BTP – Capgemini's Renewable Enterprise
- Moving to cloud with RISE with SAP (Azure, AWS, GCP, etc.)
- Process optimization: process mining, insights, and process improvements with RPAs.

Our tools and accelerators enable your company to quickly realize value with:

- Improved CVI process, and customer and vendor data cleanup and reconciliation
- Mitigated production uptime risks and avoidance of cutovers
- Reduced downtime in post-conversion integrations setup
- More error-free accelerated security remediation analysis.

## C-AMF highlights include:

- Powered by iCaptivate methodology, tools, and accelerators
- Value additions across all phases:
  - Pre-conversion: sizing, estimation, planning, impact analysis
  - Conversion: RPA-based task automation, industrialized execution, enabling innovations, comprehensive automated testing, training aids, reducing downtimes
  - Post-conversion: data validation, user adoption.
- Industry- and localization-specific conversion accelerators
- Faster enablement of innovations together with conversion
- Right-shore and standardized staffing models
- Available in T-shirt sized models.
