## **Capgemini wins two contracts with the CTTI of the Generalitat de Catalunya to drive its digitization and to explore innovative metaverse and AI use cases**

**Barcelona, May 31, 2023 – [Capgemini](#) announced today that it has signed two contracts with the [Centro de Telecomunicaciones y Tecnologías de la Información](#) (CTTI)<sup>1</sup> of the Generalitat de Catalunya, to the value of 37 million euros over the next 2 years, both extendable up to five years. As a digital services provider, Capgemini will enable the development and maintenance of all web portals, intranets and more than 100 applications of the Generalitat de Catalunya.**

The agreement also includes two Proof of Concepts to explore the possibilities offered by the metaverse and the implementation of artificial intelligence (AI).

The first contract covers content management and digital analytics for all the web portals of the Generalitat de Catalunya and the intranets of its 14 departments. The second agreement comprises support and maintenance of more than 100 of the organization's applications, including those related to the social and welfare services of the Servicio de Ocupación de Cataluña (SOC), the applications of the Departamento de Presidencia, those belonging to the Departamento de Empresa y Trabajo de la Generalitat de Catalunya, and the applications of the Instituto Catalán del Suelo (INCASOL).

*"These projects consolidate Capgemini's position as a strategic partner of the CTTI not only for the provision of digital services, but also going one step further, being one of the companies that enables its innovation journey, by making the most of the very latest technologies to realize value through unique solutions,"* said Isabel Ordoyo, Head of Public Sector and Healthcare at Capgemini in Spain.

To accompany CTTI throughout its transformation and innovation roadmap, a Capgemini team of nearly 200 professionals will build an end-to-end service delivery model.

### **About Capgemini**

Capgemini is a global leader in partnering with companies to transform and manage their business by harnessing the power of technology.
