

THE BIONIC HUMAN

Bionic enhancement is a developing technological trend that is breaking down the barriers between human and machines.

The Bionic Human will be able to perform physically demanding tasks across the supply chain, from lifting and loading stock bins to moving materials and filling consignments. With the aid of exoskeleton devices, these tasks will become easier and more efficient, making traditional gender roles in the workforce a thing of the past.

This role offers a unique opportunity to revolutionize the supply chain industry and redefine what it means to be a productive member of the workforce.

RESPONSIBILITIES

- Assist with manual labor tasks, such as lifting and loading stock bins, moving materials, and filling consignments, using exoskeleton devices
- Operate and maintain exoskeleton devices, ensuring that they are in good working order and safe to use
- Collaborate with other warehouse workers and managers to ensure that tasks are completed efficiently and effectively
- Monitor and maintain the charging and storage of exoskeleton devices
- Troubleshoot any issues with exoskeleton devices and perform repairs as needed
- Provide training and support to other workers on the use of exoskeleton devices
- Follow safety procedures and guidelines while using exoskeleton devices
- Keep accurate records of maintenance and repair activities for exoskeleton devices.

CANDIDATE REQUIREMENTS

- High school diploma or equivalent
- 1+ years of experience in a warehouse or manual labor environment
- Familiarity with exoskeleton devices and their operation
- Basic mechanical and technical skills for maintenance and repair of exoskeleton devices
- Strong interpersonal skills, with the ability to work effectively with a team
- Good communication skills, with the ability to provide training and support to others
- Attention to detail and a commitment to safety and quality.
