

The background of the entire page is a photograph of a middle-aged man with short, graying hair and a light beard. He is wearing a light blue button-down shirt and is looking off to the side with a slight smile. In his right hand, he holds a small, white, three-bladed wind turbine model. The background is a soft-focus indoor setting with green plants and a light-colored wall. A blue line graphic starts from the left, curves around the text, and ends on the right.

CARBON CAPEX CALCULATOR

Becoming carbon neutral is a top priority for many organizations. Nevertheless, the need to balance the books and make sound long-term financial decisions remains.

The **Carbon CapEx Calculator** is a strategic and analytical thinker who helps organizations take a long-term approach to finance and sustainability investment, in order to develop and execute a comprehensive carbon reduction strategy across the supply chain.

This role requires a skilled and experienced leader who is able to navigate complex financial and sustainability challenges with ease. The opportunity to make a meaningful impact on the planet while driving long-term financial sustainability is an exciting and rewarding one.

RESPONSIBILITIES

- Work with the **Waste Wealth Manager** and **Chief of Packaging Possibilities** to implement recycling programs and reduce waste
- Develop and execute a comprehensive circular economy strategy in the supply chain that aligns with the company's sustainability goals and initiatives
- Lead cross-functional teams to identify and implement circular economy initiatives, including the use of recycled materials, closed-loop systems, and reducing waste
- Conduct lifecycle assessments of supply chain operations and materials to identify opportunities for improvement
- Develop and maintain relationships with suppliers, industry organizations, and other stakeholders to stay informed of new developments in circular economy and collaborate on initiatives
- Manage the development of circular economy projects, including tracking progress and reporting on results
- Collaborate with the marketing and communications team to communicate the company's circular economy efforts to stakeholders and the public
- Monitor and report on the performance of circular economy initiatives, including measuring the impact of changes on waste reduction and resource conservation
- Stay informed of industry trends and regulations related to circular economy and ensure the company is in compliance with all relevant laws and regulations.

CANDIDATE REQUIREMENTS

- Bachelor's degree in supply chain management, sustainability, or a related field
- Minimum of 5 years of experience in supply chain management or a related field
- Experience leading cross-functional teams and managing circular economy projects
- Strong understanding of circular economy principles and life cycle assessments
- Excellent communication skills and ability to effectively communicate with stakeholders at all levels
- Ability to work independently and as part of a team
- Strong project management skills.
