

A man and a woman are standing in a meeting room, looking at a model of a building. The man is on the left, wearing a dark blazer over a white t-shirt. The woman is on the right, wearing a striped shirt and a grey vest. They are both smiling and appear to be engaged in a discussion. In the background, there is a large wall chart with various colored sections. In the foreground, there is a desk with a white wind turbine model, a glass of water, and some papers.

CIRCULARITY OLYMPIAN

Imagine a world where there is no waste, where everything is regenerated and nothing is discarded. This may sound like a far-off utopia, but it's actually a possibility with the circular economy.

The **Circularity Olympian** is a true champion of sustainability, with a laser focus on eliminating waste, reusing materials, and regenerating the natural world. They see every challenge as an opportunity to create a circular solution, and they are relentless in their pursuit of a more sustainable future.

This role leads cross-functional teams to identify and implement circular economy initiatives, inspiring others to embrace the circular economy.

RESPONSIBILITIES

- Work with the **Waste Wealth Manager** and **Chief of Packaging Possibilities** to implement recycling programs and reduce waste
- Develop and execute a comprehensive circular economy strategy in the supply chain that aligns with the company's sustainability goals and initiatives
- Lead cross-functional teams to identify and implement circular economy initiatives, including the use of recycled materials, closed-loop systems, and reducing waste
- Conduct lifecycle assessments of supply chain operations and materials to identify opportunities for improvement
- Develop and maintain relationships with suppliers, industry organizations, and other stakeholders to stay informed of new developments in circular economy and collaborate on initiatives
- Manage the development of circular economy projects, including tracking progress and reporting on results
- Collaborate with the marketing and communications team to communicate the company's circular economy efforts to stakeholders and the public
- Monitor and report on the performance of circular economy initiatives, including measuring the impact of changes on waste reduction and resource conservation
- Stay informed of industry trends and regulations related to circular economy and ensure the company is in compliance with all relevant laws and regulations.

CANDIDATE REQUIREMENTS

- Bachelor's degree in supply chain management, sustainability, or a related field
- Minimum of 5 years of experience in supply chain management or a related field
- Experience leading cross-functional teams and managing circular economy projects
- Strong understanding of circular economy principles and life cycle assessments
- Excellent communication skills and ability to effectively communicate with stakeholders at all levels
- Ability to work independently and as part of a team
- Strong project management skills.
